

**University of Illinois at Urbana-Champaign
College of Education
Bureau of Educational Research Endowment
Hardie Dissertation Support Award
2012**

Submission Deadline: 5pm, Monday, April 2, 2012 using the online submission system.

Each year, the College of Education grants several dissertation awards on a competitive basis to graduate students to support the completion of their doctoral dissertations. These awards are funded through the generosity of the alumni and friends of the College, including the Hardie Endowment. This information will help you to determine if you are eligible and how to apply.

Eligibility

Applicants must be candidates for the doctoral degree in the College of Education. They must also be full-time in a graduate program. Applicants must document that they will have completed all pre-dissertation requirements (Early Research, Research Specialization, and Qualifying Exams) by the time of the submission, and must provide a clear and specific plan for completing the dissertation within a two-year time frame. Preference will be given to students who have passed their Preliminary Oral Exam. Funds will not be released until the preliminary exam is completed.

Selection Process

Five to ten dissertation awards will be made depending on quality of proposals and availability of funding.

Letter(s) of Recommendation. One letter of recommendation should be from someone who is very knowledgeable about the student's research interests, such as the student's advisor or dissertation director, and should specifically address the importance of the proposed study and the student's capacity to carry it out. If the student has not passed the preliminary exam, the advisor should assess progress toward that goal.

Curriculum Vitae. A *curriculum vitae* must be submitted from the applicant, which includes publications, presentations and awards.

Abstract. An abstract of 150 words or less must be submitted from the applicant.

Research Prospectus. The research prospectus should be no more than 1,500 words (about 8 double-spaced pages) in length. . The prospectus should include the following components: Research Problem, Significance of the Problem, Research Questions or Hypotheses. It must contain a Methods section, including population and sample, instrumentation, data collection and analysis, and procedures; and Justification for Methods. Emphasis should be placed on clearly describing the research methods that will be used. It is important that the reviewers understand how the research questions are explicitly linked to and supported by the chosen research method(s). Conversely, the data analysis procedures should be linked back to the research question.

Include a list of references to support the research prospectus (not included in the 1,500-word limit). Copies of relevant instruments or protocols can be appended (not included in the word limit). Applicants are strongly encouraged to have his/her advisor read the final proposal prior to submission.

Work Plan. The work plan should specify what dissertation work will be accomplished during the award

period. It should include realistic dates by which each stage will be completed. If the study is in progress, the proposal should clearly describe methods as implemented rather than methods as planned, for example, actual samples obtained rather than samples planned.

Criteria. Student applications will be judged in terms of the following evaluation criteria: importance to the field, methodological soundness, student's capacity to carry out the project, appropriateness of budget, and feasibility of work plan. Successful proposals will clearly state the significance of the research for the field of education, broadly defined, and will clearly describe the study's methodology and implementation.

Award and Conditions

Recipients of the awards can receive a maximum of \$2,000 to support completion of their dissertation. The amount must be expended within a time limit of two years or graduation and in accordance with the work plan provided by the candidate.

Deadlines

Deadlines for applications is: 5pm, Monday, April 2, 2012. It is the student applicant's responsibility to see that all materials are submitted online by the deadline. No late applications will be accepted. Only complete applications will be reviewed.

Applications will be submitted through the online system instead of hard copies to the Bureau of Educational Research. Details on the submission process are available on the Bureau website, at <http://www.ed.uiuc.edu/ber/resward.html> under College Research Awards.

We strongly encourage applicants to review examples of previously funded applications, which are available from the Bureau. We also advise applicants to have their faculty advisors carefully review the application before submitting it.

This program is supported by the Charles Dunn Hardie Trust.
