

Educational Organization and Leadership Online Login/Password Management Table

This table will help you manage the logins and passwords required for online and on-campus students at the University of Illinois at Urbana-Champaign (UIUC).

Print these tables, fill in the boxes (optional), and keep them in a secure place.

Important Note: Your Login/NetID/Name will be the same for each system. However, each password may be different. For most systems, you'll have the option to change your password once you have logged in for the first time. We recommend using two passwords:

1. Primary Password: Use one password for Bluestem/NetID and UI Enterprise.
2. Service Password: Use another password for less sensitive systems such as Active Directory.

(1) UIUC Bluestem/NetID and Password. In a sense, your UIUC NetID is your "master" ID. It allows you to set and change passwords for other services that contain sensitive personal information. UIUC Bluestem is used for activating your UI EnterpriseID, setting up your Active Directory (AD) password (required to login to EOL Online courses systems), accessing the UIUC Library Gateway, accessing the UIUC bookstore, accessing the UIUC course evaluation system (EON), and more.

To activate your NetID for the first time, visit: <http://netidclaim.uiuc.edu>

To change this password, visit: <http://passwords.cites.uiuc.edu/> (Click "NetID Password")

If you forgot your password, visit: www.cites.uiuc.edu/passwords/forgotnetid.html

What	NetID	Password
UIUC Bluestem	UIUC NetID:	

(2) UI Enterprise Student Self-Service System Password. The UI Enterprise Student Self-Service System is used to register for courses, pay your bill, and see final grades. Before registering for your first course, you will be asked to create an EnterpriseID password. To change/set this password, visit:

<https://eas.admin.uillinois.edu/eas/servlet/EasBluestemReset>

What	EnterpriseID	Password
Course Registration/ Billing	UIUC NetID:	

(3) CITES Password/Active Directory (AD) Password. The CITES/AD password is used for accessing the HRE Online course system, UIUC Express email, NetFiles (a web publishing tool and file storage service) and the College of Education student webfolders. The AD password is also used by employees and students to access on-campus computers.

To create/change this password, visit: <http://passwords.cites.uiuc.edu/> (enter your Bluestem NetID and password to enter the system, then click "CITES Passwords" to set your password).

Please note: It can take up to 24 hours for the password to change.

What	Username	Password
CITES/Active Directory (AD)	UIUC NetID:	

Password Assistance is offered by Campus Information Technologies and Educational Services (CITES). Contact information and hours for the CITES helpdesk are available at:
