

Audio & Video Chatting with AIM Tutorial

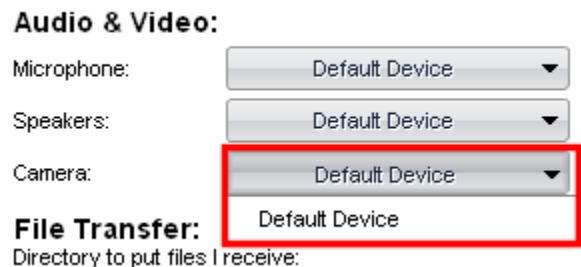

1. Prepare your webcam and headset, and select it in AIM.

1) Click the **Edit** menu, then click **Settings**.

2) Click the **Enhanced IM** tab.

3) In the **Audio & Video:** section, click the **Use this camera when starting a Video session:** drop-down menu, and then choose the camera you want.

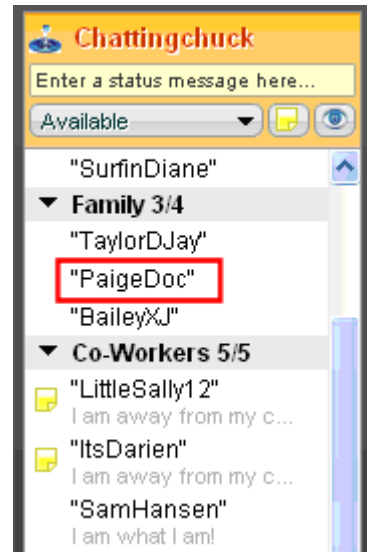

4) Click **Apply**, and then **Save**.

2. Start a chat session

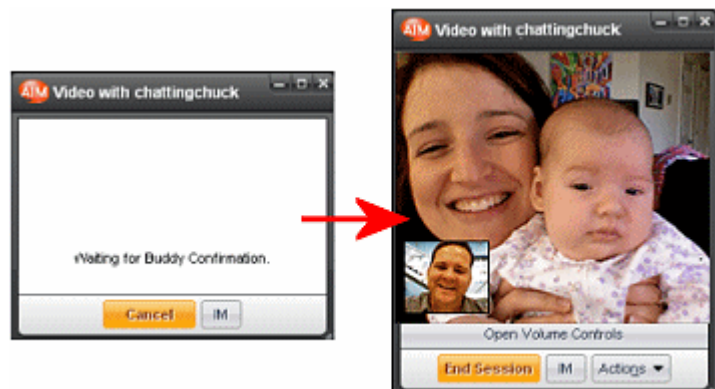

1) Double-click your buddy's name in your Buddy List to open an IM window.

2. Click **Video** to have a live chat with video cameras, or click **Talk** to have a live chat with microphone only.

3. Once your buddy confirms, your video chat session starts off in a new window, thereby allowing you to get back to IMs whenever you feel like.

In addition, You can also get back to your IMs by clicking the **IM** button at the bottom of the video chat window.
